Intro	I'm a 19 years old student from the sunny city of Lisbon in Portugal, who loves to create games and robots for fun!
Experience	<p>Co-lead, Google Developer Group Lisbon – since January 2014</p> <p>Our main focus here is empower the developer community in Lisbon by organising meetups and other awesome events to get people together talking about technology.</p> <p>Collaborator, SINFO – since October 2013</p> <p>SINFO is considered to be one of the biggest student organised events, and one of the most important technological events in Portugal. I'm on the team behind Innovation Awards, an annual contest organised by SINFO and JEEC but also do web design and deal with sponsors and speakers.</p> <p>Computer Society Chapter Chair, IEEE-IST Student Branch – since October 2013</p> <p>We are an organisation that seeks to promote engineering and, through various activities, to create a healthy environment and cooperation among the engineering students (between them and them and other engineering students).</p> <p>Volunteer, LXJS Conference – October 2013</p> <p>I volunteered during the event, having done a bit of everything there, from putting together the participants kits to overseeing workshops and giving directions to people.</p> <p>Collaborator, Artica – 2011-2013</p> <p>I was invited to work at Magabot, an wheeled platform to turn laptops into robots, but ended up doing all sorts of awesome stuff, including web development, 3d printing, working with Microsoft's Kinect telepresence, hacking arcade machines and building robots that could shoot ping pong balls, etc.</p>
Education	<p>Instituto Superior Técnico – Information Systems and Computer Engineering, since 2012</p> <p>Studying subjects as Introduction to Algorithms and Data Structures, Object-Oriented Programming, Computer Architecture, Digital Systems, Operating Systems, etc</p> <p>Cambridge English - First - B2 (First Certificate in English – FCE), 2008 - 2012</p>
Languages	Portuguese & English
Skills	Javascript, Python, C, C++, Java, Node.js, HTML5 & CSS3, Robotics, Game Development
Other	As a hobby I like to build robots and make HTML5 games which can be found on my website: http://franciscodias.net/ . I also love surfing every time I can.
